- Academic Teaching Certificate
- Training in didactics, methodology, ILIAS, etc.
- Didactic remodeling

Students

- ILIAS introductory courses
- Maintain & increase motivation
- Promote e-competencies
 (use of ILIAS tools in self-study and in support of learner groups)

Teams

Specific to each course of studies:

- ILIAS training
- Continuing education
- Exchange of didactic scenarios

Teach & examine

- Interaction of teaching & examination
- Discussion and development of competence-oriented examinations
- Integration of e-elements in teaching and examination, e. g. e-portfolio, e-exams etc.
- Examination didactics
- Use of ILIAS

Realize Exchange

- Capacity and willingness to develop one's own teaching competences
- Self-reflection with a view to designing an innovative learning/teaching culture
- Outcome-oriented teaching (learner-centred and enabling)
- Reflect upon and develop one's own teaching incl. e-learning settings (analyze in terms of didactics, methodology, media and ILIAS tools)
- Know modes of operation of teaching & e-learning

Teaching culture

- Capacity and willingness of students to enter a sustainable learner-centred learning process
- Accept basic conception as acting learner (learning activity)
- Develop communicative and collaborative aspects, e.g. use public comparisons of solutions as a feedback via self-reflection
- Demand and accept transparency of learning goals
- Use geographical mobility and temporal flexibility in an expedient way
- Responsibility and reflection as essential dimensions of competence

Learning culture
